Here you can propose alterations to the level of publication channels that have already been rated in the Publication Forum.

In the constantly ongoing complementary evaluation, the panels may award level 1 to publication channels previously classified as level 0. The evaluation process takes about 2-5 months.

Proposals regarding levels 2 and 3 will be considered in the review of ratings. All ratings will be reviewed every four years (2014, 2018, 2022 etc.)

4) Select proposed level, write down your grounds and save.

Level amendments can be proposed on the web pages of Publication Forum, too:

<https://www.tsv.fi/julkaisufoorumi/ehdota.php>
